CURRICULUM VITAE

I have a strong background in diverse industries including customer service and legal assistance, which have taught me the importance of adaptability and problem-solving. I am now transitioning into the field of software and web development as I am drawn to the creative challenges and endless opportunities to innovate in the tech industry. I recently graduated from a coding Traineeship as a full stack developer including completing 2 real-world projects successfully to specification using a wide range of programming languages. Alongside my training, I have been actively involved in open-source initiatives on platforms like GitHub and Stack Overflow, and I also share my coding knowledge through my own YouTube channel. I am deeply committed to continuous learning and growth in this field, and I believe that my dedication and proficiency across various technologies will ensure that I am able to contribute effectively and thrive in a junior developer role.

PERSONAL DETAILS

NAME: Htin Zaw

RESIDES: London (Willing to relocate)

TRANSPORT: Full UK driving licence

LANGUAGES: English, Burmese

RIGHT TO WORK: British Citizen

CODING TRAINEESHIP

IT Career Switch Ltd
Coding Traineeship – Full stack developer
1-year program

During the traineeship I had to demonstrate a very competent level of the following programming languages and technical skills

- HTML5, CSS3, JavaScript
- PHP, SQL, React, jQuery
- Python, Node.js, Bootstrap
- Command line Git, GitHub
- Remote API access

ADDITIONAL TECHNOLOGIES:

- Redux, React Router, Jest, TDD, Express.js, PostgreSQL, AJAX, Mocha, WordPress, OOP, Data Security, User Authentication & Authorization

DEVELOPMENT EXPERIENCE:
Below are the two briefs of development projects I completed with IT Career Switch which can be found in my bio:
https://htinzaw.co.uk/

Portfolio Project #1: "Gazetteer"
The specification was to reply to a website specification for a map-based app to provide information on countries, with a focus on a "mobile-first" development. Preferably using a framework, to then develop HTML, CSS and JavaScript with jQuery modules that use PHP server-based components to source data from third-party APIs (Geonames, OpenWeather). The solution is assessed on its delivery to specification, functionality, and usability.

Portfolio Project #2: "Company Directory"
A more rigorous reply to this specification was required as a user requirements document was needed to be prepared which, when signed off, triggers the release of SQL allowing to develop a "mobile-first" application to

maintain a company personnel database (MySQL). Sign off is only achieved upon the student supplying an independently witnessed document providing confirmation of the system's ability to perform error-free.

CAREER HISTORY:

Jun 2015 – Present
POSITION HELD:

Carpetright plc
Warehouse Operative

- Duties included receiving goods in, training of staff and computerised tracking of all material movements in and out of the warehouse
- Loaded/unloaded/put away using various machinery
